

SATELLITE DISH APPLICATION

UNIT # _____

NAME _____

I request permission from Willow Springs to install a satellite dish at my unit.

I understand that the dish may NOT be installed on the roof. Although the HOA requests the installation of the satellite dish to be in the patio area at ground level; I am seeking permission that this dish be installed on the side of the building but not near the roof. Should any damages to the face of the building occur during said installation, I shall be responsible for all charges incurred due to the repair of these damages.

Also, I will not hold Willow Springs responsible for any disruption, disconnection or reconnection of my satellite service during or after the repair or installation of the siding to my unit, nor will I hold Willow Springs responsible for any damages to the dish as per Association By-Laws, Article XIII, Limitation of Liability.
